ETHEL TUCKER  
WAS REAL ANGRYCALLS DOWN PARTY OF MEN IN  
PHOENIX THEATRE.

Manager of the House Loses His Temper and Flourishes Gun—Miss Tucker Pointed Out the Men From the Stage.

The Ethel Tucker Stock Co., which is playing at the Orpheum in Douglas this week, and which will appear in Bisbee on Sunday evening, caused a scene in a Phoenix theatre last week.

In speaking of the occurrence the Phoenix Gazette says:

Last night at Eastlake park during the progress of the play at F. C. Berger's theatre the audience was thunder-struck when during an act Miss Ethel Tucker, the leading lady, turned to a party of gentlemen, including two of the most prominent business men in Phoenix, and remarked that they evidently did not like the play and if so she would say for Manager Berger that they could get their money back. Berger himself then walked forward and pointed out the gentlemen telling them they would have to leave.

They started to go and a squabble ensued about the return of the money. The gentlemen, as a matter of principal, demanded the return of their money and the box office desired to retain a portion of it. Mr. Cheatham, a San Francisco gentleman who is a friend of Mr. Louis Melzer, was of the party and had bought the tickets. When he was finally given his money he asked why one of the party, Mr. Tod, should remain and the rest be ejected. He said the rest had as much right to see the play through as he and then it was that Manager Berger lost his temper and grabbing a big revolver he swung it around his head in wild west style.

The gentlemen of the party, while incensed at the unjust, uncalled for and decidedly ungentlemanly treatment that had been accorded them, had refrained from saying some things that they might have been tempted to say had not Mr. Berger's wife been present but the manager was not so careful.

As he whirled the gun around his head he shouted: "I will shoot —"

"What he might have done with the deadly weapon is matter for conjecture.

His father-in-law, Mr. Reid, who seemed to be the only one of the theatrical people retaining any judgment, seized Berger and probably prevented bloodshed.

The gentlemen of the party were Mr. Root, a recent arrival of New York city; Mr. Cheatham, a San Francisco gentleman; Mr. Louis Melzer and Mr. Paul Brizzard, two prominent business men of the city; N. L. McElligott of the Republican and Eugene Tod, an advertising man.

Judging from Miss Tucker's speech some of the audience thought the gentlemen had passed offending remarks about the members of the company but no one could be found who heard anything of the kind and a member of the party explained it to the Gazette this morning saying that as they entered Mr. Cheatham called for the tickets and when asked where he wanted them remarked to Mrs. Berger that he was not particular. Then he said: "Don't take us too near the line." At this Berger seemed to take offense and remarked that "We don't put any one too near the line."

On entering the strangers of the party were questioning the others concerning the identity of some of the actors and the party were laughing and talking in a quiet way. No unfavorable comment was being made and Mr. Brizzard remarked to the Gazette today that he was so surprised that he gazed in open mouth wonder at Miss Tucker when she made her remarks and pointed out his party.

## SWALLOWED CARBOLIC ACID.

Woman Takes Deadly Drug by Mistake—Thought it Headache Medicine—Condition Critical.

Mrs. May Gillis is in critical condition at the Elite lodging house on Main street as the result of having swallowed nearly the entire contents of a two ounce bottle of carbolic acid at an early hour yesterday morning.

The throat and mouth of Mrs. Gillis were terribly burned by the fiery acid and the internal burns sustained may yet prove fatal. Immediate death was averted only by the prompt screams of the woman, which summoned aid and medical attention almost immediately. A stomach pump and emetics were used with good results at once.

Mrs. Gillis took the acid by mistake. Suffering a severe headache she got up in the night to get a bottle of headache medicine which she had in her room. Instead of the headache medicine she secured the bottle of carbolic acid and pouring the contents into a glass partly filled with water drank it down at a gulp.

Judge McGowan left last evening for Douglas on legal business. Alfred Paul was a business visitor in town yesterday from the silica quarries.

MAIN STREET CITIZENS  
CIRCULATE PETITIONS

MAN EMPLOYED FOR THAT PURPOSE ON YESTERDAY.

First Section Visited Was Tombstone Canyon—People Asked to Sign the Petition on General Proposition of Changing Post Office to Main Street.

Main street enthusiasts are moving in the matter of the removal of the Bisbee post office to some site on Main street.

Yesterday a man was put in the field along Tombstone canyon, Higgins Hill and Quality Hill, circulating a petition asking for the removal of the post office from Brewery Gulch to Main street. The exact location of the post office site was not known to the person circulating the petition, but anywhere on Main street was considered good enough, compared to Brewery Gulch.

The circulation of the petition yesterday is a part of the plan of the Main street business men to secure the location of the post office in their midst. In the mean time the business men in the other portion of the town are not idle by any means. Plans are already being made for a presentation of facts and figures, substantiated by more than one offer of a desirable site, when the inspector arrives and the post office department takes up the matter of affording increased space for the handling of the business in this rapidly growing city.

Jacob Schmidt, owner of the present site of the post office, will be ready to meet every demand of the department for increased room, and in the event that this fails, the public spirited citizens who have business in the Brewery Gulch district will propose the old Muhlenberg frame building, which now acts as a wedge at the entrance of Brewery Gulch, as a suitable site, and offer to erect a building especially adapted for post office purposes.

From this it will be seen that if the Main street business men are to get into the post office game, they must be up and moving, for there will be no end of sites and money forthcoming in Brewery Gulch at the proper time in order to satisfy the post office department.

Postmaster Cassidy stated yesterday to the Review that he had no interest in the location of the post office, other than the providing of proper facilities for handling the business, and that he would not attend any meetings of any kind where the object was to devise ways and means for its future location.

When asked when the post office inspector was expected, he replied that he did not know. That they generally put in an appearance when least expected, but in all probability one would be here within a short time.

In addition to the Brewery Gulch sites which will be available and the Main street sites that will be offered, it is a well known fact that the new Allen building will be offered at the proper time and be submitted as a location for the department to consider.

Taken all in all the department need not worry about a location for the post office, and at little expense to Uncle Sam.

## COPPER BELL HAS ORE.

New Sonora Property Comes in With Four Feet of High Grade Glance.

Joe Cox is in the city from the Blue Bell mine in Sonora, where he is engaged sinking a shaft on the ground for exploratory purposes. He brings report of highly satisfactory developments to date. During the week the shaft entered ore. Four feet of this has now been secured and the shaft at 30 feet is still in ore. The latter is a high grade copper glance, making from 30 to 40 per cent. The formation in which it is secured is very favorable and Mr. Cox feels high confidence in the property.

WOMAN'S CLUB WILL  
GET KINDERGARTEN

ARRANGES FOR PURCHASE OF FURNITURE FOR NEW DEPARTMENT IN SCHOOLS.

Will Be Established in Room in New Central Building Upon Completion of the Latter—Club Furnishes Money for Equipment of the Room.

A Kindergarten department of the public schools of the city is assured upon the opening of the new Central building, where the kindergarten will be located in a room that is to be set aside for that purpose.

That the Kindergarten will materialize is due to a recent meeting of the Kindergarten committee of the Bisbee Woman's club. It was called for the purpose of deciding whether the club and the school trustees could cooperate in the matter, and if so, how much aid the club could immediately extend to the enterprise.

As a result of discussion in the committee, composed of Mrs. Paul, Mrs. Caven, and Mrs. High, it was decided that an order for kindergarten furniture should be placed with the general order for furniture for the new school building. This has been done and the kindergarten equipment will be along at the same time the other furniture for the building comes to hand. The cost of the kindergarten furniture will be something over \$100, which amount is furnished from a fund in the hands of the Woman's Club committee. In this fund there is about \$500 more. It will be partly used in the purchase of a piano for the school. The fund was raised a couple of years ago, when the establishment of a kindergarten department in the public schools was first brought up. A misunderstanding between the school trustees and the Woman's club resulted in the enterprise being dropped at that time. Since then an understanding reached between the trustees and the Woman's club committee assures agreeable co-operation between the two.

## CLIFTON BEATS EL PASO.

Ten Innings Was Required to Do the Trick.

The Clifton baseball club is one of the attractions at the territorial fair at Albuquerque. On Wednesday the Arizona ball tossers crossed bats with the El Paso Browns, with James J. Jeffries as umpire, and won the game by a score of 5 to 5. The El Paso News says:

Clifton and the El Paso Browns locked horns today in a death struggle at the Territorial Fair at Albuquerque, and Clifton was victorious in the tenth inning by a score of 6 to 5. Batteries, Weisbecker and Meyers; Widmann and Kelly.

The game the locals are putting up at Albuquerque has made a great change in the attitude of the fans, and instead of getting out an injunction restraining them from going to Albuquerque, the enthusiasts now talk of meeting them at the train with a brass band. The first victory was a great surprise when Las Vegas was defeated, but that they could play a ten-inning contest with the team that defeated them twice here Saturday and Sunday, wins back all the loyalty which the exhibitions of Saturday and Sunday had caused to waver.

El Paso does not play again before Friday, when they meet Trinidad, while Saturday afternoon they clash with Albuquerque. It is now a foregone conclusion that several fans who had believed that the locals did not stand a chance, will leave here Thursday night on the Santa Fe and will be on hand to cheer the Browns to victory in the two games, Friday and Saturday.

## SEWING MACHINES.
